Sometimes they are marked like this: $.25

Do these two tags tell the same amount? _____

If you had 100 pennies, could you buy something that cost $1.00? _____

If you had 10 dimes, could you buy something that cost $1.00? _____

If you had 4 quarters, could you buy something that cost $1.00? _____

It takes only one penny at a time.

What would you have to do
to get some gum?

Now pretend you have . . .

1 dime and 1 penny.
You want to buy gum for
your friend and you.

Can you get 2?

What do you have to do?

If you bought 2,
how much money
